This form must be completed and signed and kept on file with the school and is subject to inspection by the LHSAA Rules Compliance Team.

As an LHSAA athlete, I, _____, agree to avoid the abuse or misuse of legal or illegal substances, including anabolic steroids and other performance enhancing drugs. I hereby grant permission to be tested for substance abuse/misuse as a participant in any LHSAA sports program. I furthermore agree to cooperate by providing a urine or hair specimen for testing upon the request of my principal. Dated: _____ _____

Dated: _____ _____
Parent/Guardian

Notes: **Rule 1.10.2 of the LHSAA By-Laws, states that this contract shall remain in effect for the remainder of the student's eligibility. This means the contract only has to be signed once by both the student and his/her parent or guardian but the terms remain in effect for the student's entire high school career.**

According to Rule 1.10.4 of the LHSAA By-Laws, without the signature of the student athlete and his/her parent/guardian, the student is ineligible to participate in interscholastic athletic contests at all levels of play in all LHSAA sports at all LHSAA schools until compliance with Rule 1.10.2 is obtained from both parties.

Any student participating in an interscholastic athletic contest(s) without a properly signed contract shall be classified as an ineligible student and both the student and school shall be penalized according to Rule 1.10.4.

Signature of the LHSAA's contract does not necessarily mean the student athlete will be tested. Federal courts have consistently ruled participation in high school athletics is a privilege, not an educational right.

A Fact Sheet for **PARENTS**

WHAT IS A CONCUSSION?

A concussion is a brain injury. Concussions are caused by a bump or blow to the head. Even a "ding," "getting your bell rung," or what seems to be a mild bump or blow to the head can be serious.

You can't see a concussion. Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury. If your child reports any symptoms of concussion, or if you notice the symptoms yourself, seek medical attention right away.

WHAT ARE THE SIGNS AND SYMPTOMS OF A CONCUSSION?

Signs Observed by Parents or Guardians

If your child has experienced a bump or blow to the head during a game or practice, look for any of the following signs and symptoms of a concussion:

- Appears dazed or stunned
- Is confused about assignment or position
- Forgets an instruction
- Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows behavior or personality changes
- Can't recall events prior to hit or fall
- Can't recall events after hit or fall

Symptoms Reported by Athlete

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Sensitivity to light
- Sensitivity to noise
- Feeling sluggish, hazy, foggy, or groggy
- Concentration or memory problems
- Confusion
- Does not "feel right"

HOW CAN YOU HELP YOUR CHILD PREVENT A CONCUSSION?

Every sport is different, but there are steps your children can take to protect themselves from concussion.

- Ensure that they follow their coach's rules for safety and the rules of the sport.
- Encourage them to practice good sportsmanship at all times.
- Make sure they wear the right protective equipment for their activity (such as helmets, padding, shin guards, and eye and mouth guards). Protective equipment should fit properly, be well maintained, and be worn consistently and correctly.
- Learn the signs and symptoms of a concussion.

WHAT SHOULD YOU DO IF YOU THINK YOUR CHILD HAS A CONCUSSION?

1. **Seek medical attention right away.** A health care professional will be able to decide how serious the concussion is and when it is safe for your child to return to sports.

2. **Keep your child out of play.** Concussions take time to heal. Don't let your child return to play until a health care professional says it's OK. Children who return to play too soon—while the brain is still healing—risk a greater chance of having a second concussion. Second or later concussions can be very serious. They can cause permanent brain damage, affecting your child for a lifetime.

3. **Tell your child's coach about any recent concussion.** Coaches should know if your child had a recent concussion in ANY sport. Your child's coach may not know about a concussion your child received in another sport or activity unless you tell the coach.

It's better to miss one game than the whole season.
